Santa Ana Region

IN THE MATTER OF:)	
)	
Inland Empire Utilities Agency)	Complaint No. 01-117
9400 Cherry Avenue, Building A)	for
Fontana, California 92335)	Mandatory Penalties

YOU ARE HEREBY GIVEN NOTICE THAT:

1. Inland Empire Utilities Agency (IEUA) is alleged to have violated provisions of law for which the California Regional Water Quality Control Board (Board), Santa Ana Region, must impose mandatory penalties pursuant to California Water Code (Water Code) Section 13385 (h) and (i).
2. A hearing concerning this complaint will be held before the Board within 60 days of the date of issuance of this complaint, unless IEUA waives its right to a hearing. Waiver procedures are specified on Page 2 of this complaint. If the hearing in this matter is not waived, the hearing will be held during the Board's regular meeting on January 25, 2002 at the Council Chambers of the City of Loma Linda, 25541 Barton Road, Loma Linda, California. IEUA or its representatives will have an opportunity to appear and be heard and to contest the allegations in this complaint and the imposition of mandatory penalties by the Board. An agenda and announcement for the meeting will be mailed to you not less than 10 days prior to the hearing date.
3. If the January 25, 2002 hearing is held, the Board will consider whether to affirm, reject or modify the proposed mandatory penalties or whether to refer this matter to the Attorney General for recovery of judicial civil liability.
4. This complaint is based on the following facts:
 - a. On June 25, 1999, the Board adopted Waste Discharge Requirements Order No. 99-36 (NPDES No. CA8000073), for IEUA. These requirements regulate discharges of waste from IEUA's Carbon Canyon Wastewater Reclamation Facility (CCWRF).
 - b. IEUA submitted self-monitoring reports (January 2000 – June 2001) from CCWRF, which show an effluent limit violation of chlorine residual that occurred on April 15, 2001. This violation occurred when CCWRF exceeded 0.1 mg/L of effluent chlorine residual concentration for more than 5 minutes. Approximately 28,000 gallons of chlorinated tertiary treated effluent with a peak chlorine residual concentration of 0.9 mg/L was discharged to Chino Creek.

5. Water Code Section 13385 (h) and (i) requires the Board to assess a mandatory minimum penalty of three thousand dollars (\$3,000) for each serious and/or chronic violation.
6. As explained in paragraph 4.b., IEUA's CCWRF incurred one effluent limit violation between January 2000 and June 2001. The violation covered by Complaint No. 01-117 is a serious violation as defined under Water Code Section 13385 (h).
7. In accordance with Water Code Section 13385 (h), the mandatory minimum penalty for one serious effluent limit violation cited in paragraph 4.b. is \$3,000.
8. In accordance with Water Code Section 13385(c), the Board may impose administrative civil liability for the violation cited in paragraph 4.b. The maximum administrative civil liability, which may be imposed for this violation, is \$10,000.
9. The Executive Officer proposes that mandatory penalties of \$3,000 be imposed on IEUA by the Board for the violation cited above.
10. You may waive your right to a hearing. If you waive your right to a hearing, please sign the attached waiver, which is Page 4 of this complaint, and return it together with a check payable to the State Water Resources Control Board in the amount of the mandatory penalties proposed in paragraph 9, above. Send the check and waiver to:
